

Bag sewing threads

We are offering wide range of bag closing threads with the following technical specification:

Quality description: Ne 12/4 bag sewing polyester thread, precision winding.

Assortment: 200g dry, 1kg dry, 2,5kg dry, 4,5kg dry and 4,5kg oiled (real weight is 6,75kg) cones.

Dry variants are used for paper bag closing and also for closing of raschel bags by hand machines or low speed packing lines.

Oiled threads are used for closing of raschel bags on packing lines to avoid needle overheating and melting of sewed material. Typically used on potatoe packing lines.

Standard colour is rawwhite, 200g cones are offered also in red, blue, yellow, green and black colour.

Key features of AICA brander threads:

Wide range of sizes and colours

Excellent European quality

Proper certifications for use in food industry for dry as well as for oiled variant

Reliable and prompt deliveries

Reasonable price
