

Raschel Bags in Pieces

The raschel (mesh) bags in pieces represent the most universal packing material for most of the agricultural products as potatoes, onions, cabbage, red beet, carrot and other vegetables but for some fruits as well.

It is very popular all over the world for the features which includes:

- physical qualities as permeability, solidity, flexibility, transparency and very wide assortment of various sizes and colours
- light weight
- universal way of packing which can be used for deliveries to wholesalers as well as to end users and which can be also combined (small bags can be easily transported in big ones)
- durability – can be used for packing of foodstuffs but also other materials like chopped wood
- low price per piece
- can be fully recycled

The AICA branded high quality raschel bags with high density pattern of 12 mm row distance are equipped with blue tightening string, inserted into the third row, for easy closing of the bag by one movement of hand. Assortment of the AICA branded bags includes the following bag sizes:

<i>Dimension (cm)</i>	<i>Volume (kg)</i>	<i>Bag Weight (g)</i>
