

Thermotransfer Ribbons

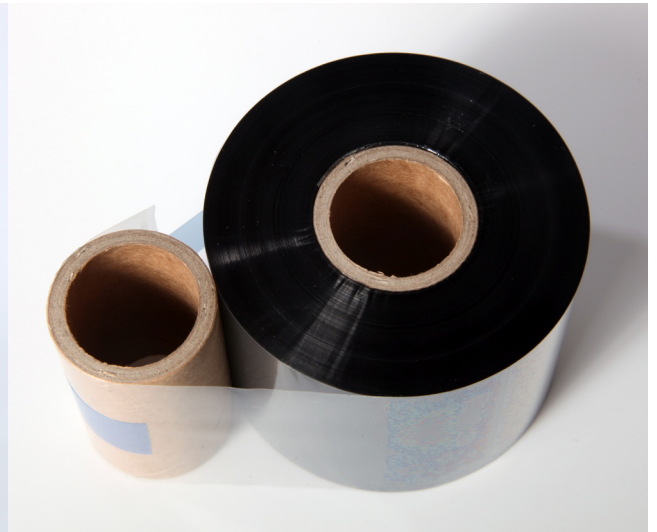

AICA offers high quality thermotransfer ribbons matching all types presently used thermotransfer printers.

Our standard offer includes following types of ribbons:

- wax, wax-resin, resin for flat printing heads (printers of Zebra, Data-Max and Intermec brands)
- type: wax-resin for NEAR EDGE printing heads (e.g. for printers Jaguar, Smartdate and Easyprint)
- ribbon width: 35, 40, 45, 50, 55, 60, 65, 70, 75, 80, 90, 100, 110 and 150 mm
- ribbon length: 300, 450 and 600m.
- printing side: inner (IN) and also outer (OUT)

The thermotransfer ribbons can be stored without deterioration of their quality as long as 1 year upon the following conditions:

- the ribbons are stored upright, i.e. the inner tube in vertical position
- the ribbons are not exposed to sun rays and are stored in sufficient distance from sources of heat.
- humidity in storage room ranges among 30 – 80%

Advantages of the AICA branded TTR:

comprehensive assortment of all required sizes for all types of printers

excellent, tested quality
